Dear Examiner Li,

I just checked SCORE and the results for your sequence search are there now. I would encourage you to use SCORE and see your results today.

<http://es/ScoreAccessWeb/GetItems.action?Appld=10523100&ItemType=4&VersionNo=4>

After downloading files, use Microsoft Word to view, manipulate and print.

Go to eDan and click on the SCORE icon, the button with a tiny double helix, third button from the end on the right (directly to the right of the yellow envelope icon). Then click on the SCORE Home Page Button.

OR use <http://es/ScoreAccessWeb/> (Bookmark this website for future viewing of results.)

- 1) Enter the serial number in the **Identification Number box** and click on **Submit**.
- 2) The next screen you will see is: **SCORE Table of Contents for Application**
- 3) Click on the **Number of Search Results** in the center box.
- 4) Click on the Sequence IDs (all are hyperlinked) to see your results. On this screen, note that there is a header **Item Listing Version#**
- 5) If you don't see all of your results (or to see all previous search results), click on the **View version list for this application** link. And then click on another version number.

If you have any problems, please do not hesitate to call me for assistance. You can print or download the results from your desktop. No need to wait for a printout of the results when you can view the results now.

If you still would like to receive a printout or disk from us, please e-mail me and let me know whether you prefer a printout or disks for your output for this case.

Please let me know if you have any questions. Thank you for using STIC services.
